Pretty Matron Had Catarrh for Years Now Entirely Well, Thanks to Peruna

Above is the photograph of Mrs. H. Garner, No. 2 Woolbart Terrace, Atlantic City, New Jersey, who makes public the following statement:

"I have had catarrh of the head since childhood, but thanks to Peruna I am a well woman to-day. I am very grateful to Peruna. Sometimes I think I am not the same woman of a year ago, for I thought I would never get well again. My husband joins me in praising Peruna. He has had occasion to take it himself and is well pleased with the results."

The January Clearaway of Kid Gloves

Tomorrow at 8:30

And now the annual clearaway of short kid gloves---the event that the women of Atlanta know well as the one best time to buy gloves in quantities.

There are eight hundred twenty-seven pairs in the sale---per-haps mussed or soiled a bit, but the QUALITY of every pair is true to the reputation our glove section enjoys---BEST GLOVES AT REG-ULAR PRICES.

All sizes in every color excepting black---a few sizes missing in these. An early start tomorrow will be wisest.

\$2 Short **Kid Gloves**

Included are Trefousse's glace kid, P. K. and suede gloves. Three hundred eighty-seven pairs; cream, tan, slate, navy, red, green, black and white. Included with these are a few "Fownes" \$2.00 gloves. It would be wise to buy by the half dozen pairs.

\$1, \$1.25 and \$1.50 **69**^c Short Kid Gloves

Two hundred seventy-six pairs of \$1.50 gloves—"The Navarre" 2-clasp glace, and "The Dreadnaught" P. K. sewn. Sixty-four pairs of \$1.25 glace gloves; one hundred pairs of the famous "Solitaire" \$1.00 glace gloves; black,

A "Little" Sale of Hats and Untrimmed Shapes From Estelle Mershon. The Savings are Large

Estelle Mershon, 20 E. 46th St., New York, has sent us hats and untrimmed shapes for a fine sale.

They came this morning, to these we have added a number from our own stock. The result is one of the finest hat occasions of the season.

We will tell it in figures---

At \$5 \$20 and \$25 Hats

Seventy of these, and scattered among Seventy of these, and scattered among them are a number of original Paris models. Others are the work of the smart Estelle Mershon milliners. Hats you will like; that you will want. Fresh styles for right-now wear, too various to describe but in a general way. Plushes and velvets rule; medium small shapes. Feathers, wings, ostrich sprays, fruit, numidie and ribbons are used artistically as trimmings; black, blue, tango, green—about all colors.

about all colors.

The selling of such hats at \$5.00 is a

very rare and fine opportunity.

The price is purely arbitrary—a clear-away price—and has nothing to do with the value of the hats.

At \$1

\$8 and \$10 Hats

Twenty-three of these, and at \$1.00! Black, brown and blue hats; plushes and velvets; small and medium shapes; trimmed gracefully with wings, feathers, quills and ribbons.

The thrifty woman will hardly take the chance of coming late for one of these.

Also \$7 to \$12 Shapes are \$1

One hundred three, untrimmed velvet, plush and felt shapes, in black, brown, blue, green, purple, tango and gold, duplicates of which were the basis of the success of Estelle Mershon milli-nery this season, are \$1.00.

The 98c Side of the Great White Sale Is Very Fine

Fulton County's Schools.

It is a distinctive tribute to Fulton county that teen of its schools have been awarded certificates fact which means that they have casured fully up to the standard prescribed by the ate Department of Education and are serving the mmunity with earnestness and ability.

State Department of Education and are serving the community with earnestness and ability.

In order to secure a certificate of efficiency, a county school must meet certain requirements in respect to the teacher, the grounds, the building and quipment, associated activities, the salary of the reacher and the length of the term. It is required, for instance, that the teacher be thoroughly compenent, the methods of instruction and school management are the test. The school grounds must be well lept and must include, in addition to adequate sandary facilities, a playround and a garden. The building must be painted and plastered or ceiled; it finat also be free from leaks and broken window since, must have closk rooms, substantial doors with socials and keys and must be neatly kept. The equipment of the standard school, includes modern desks, at least twenty feet of blackboard for each room-wall, a library and a sanitary water supply. The standard country school is expected to interest itself in activities of a social and economic character, such such country school is expected to interest itself in activities of a social and economic character, such such country school is expected to interest itself in activities of a social and economic character, such such country school is expected to interest itself in activities of a social and economic character, such such country school is expected to interest itself in activities of a social and economic character, such must be a fleast.

These requirements, though apparently simple

hen considered singly, make up an educational idea which it is an honor for any county school to attain and which, as a matter of fact, comparatively few have yet reached. Superintendent Merry and the applendid corps of teachers who have made Fulton's line record possible are heartily to be congratulated.

There appear to be just lots of things rarer than fall day in January—in Atlanta.

Anybody can turn night into day, but most do with electric lights not the midnight oil.

There's nothing like the backing of your sister ties to get a regional bank, and Atlanta is being acked strong.

The Cost of Running

Fulton County.

Expenditures for the upkeep and improvement of liton county last year amounted to a million, five indred and ninety-five thousand, four hundred and hirty-eight dollars, an increase of some seven hun hirty-eight dollars, an increase of some seven hun-ried and thirty-one thousand dollars over the pre-seding twelvemonth. These and other impressive gures in the annual report of retiring Chairman shelby Smith, and it Board of Commissioners, indi-tate the widening scope of the country business and the enormous cost of conducting it. The fact and these funds are available is evidence of Pulton's

During the year the public works department is asid to have maintained and repaired more roads, built more bridges, laid more severs, graded and paved more streets and carried forward more improvements of every kind than ever before in the year of the properties. The aggregate value of this work, according to the retirng chairman's report, was seven bundred and sixty-six thousand, four hundred and rorty dollars; and it is noteworthy that of this sum, mearly three hundred and eighty-one thousand dollars, represented work done within the corporated limits of Atlanta. This was only to be expected, however, under any fair apportionment of labor and funds, for Atlanta pays the bulk of the county's taxes and its progress is an earlebing influence for all the surrounding country.

the surrounding country.

The country schedt item of expense, however, is
e new court house which will cost, when completed
for turnished, a million two hundred thousand dolrs. That is far beyond the original estimate of
this hundred and forty thousand dollars. It should
noted in this connection that during the year the
nutry's tax rate was increased two mills, so that
e rate is now eight and a half mills.

Perhaps the reason a mother expects her son to come a great man is because his father isn't.

A Regional Bank for the Southeast.

A Regional Balik for the Southeast.

The Southeast is clearly entitled, under the purpose of the new banking and currency law, to a federal reserve district and a regional bank. The interests of the States comprising this part of the Union are so great, so varied and distinctive that they could never be adequately served or duly protected except through a district of their own and a bank castly accessible to them all. This fact seems generally recognized by financiers the country over and it cannot fall to impress the Government Officials who are entrusted with the organization and allotment of the reserve banks.

It is essential, however, that the butless and the business institutions of this section pull together for their common interests in order that the Southeast may be assured of getting what it deserves. Should they fall to fighting among themselves or forget their general good in petty, internal jaslousies, they may upt the entire section's opportunity and, instead of securing a regional bank, be forced depend upon some remote financial center.

There are cheering indications, however, that such

remote financial center.

There are cheering indications, however that such will not be the case. The prevailing opinion is that Alphant is the logical location for a regional bank in the Southeast. Especially significant in this regard is the action of the Maon banks, the Macon Chamber of Commerce and the Columbus banks in cortially indorsing Atlanta as the place for a regional bank in the general manual control of the prevail of the control of the place for a regional bank.

indorsing Atlanta as the place for a regional bank. The generous and far-sighted attitude of these institutions and cities is believed to be typical of thought of long and cities of thought of long in the place of the place of the place of the place of the cities and cities of the citie

we shall siliceced; but divided, we may fall.
It is not necessary at this moment to particularize
Atlanta's clatims to a regional bank. Spifice it to say
that, this city is by common' agreement the logical
center of any reserve district which may be ostablished for the South Atlantic States. Atlanta's intercets and those of the Southeast are identical; and by
uniting to secure a regional bank for Atlanta, the institutions and the people of this section will make
their own welfare under the new banking and currecevery system score.

17 ACRES on nice truck farm, seven miles from city; splendid water and branch, with 300 fruit trees; good two-story house in fine condition; chicken barn with runs all wired in. Land in high state of cultivation. Price \$3,750, on terms.

\$600 PER ACRE TEN ACRES on Howell Mill road, with about 600 feet frontage.

Adjoining property sold for \$900 per acre. New car line will soon be built on this road. A good bargain.

26 ACRES FOR \$7,000

ON MARIETTA car line. Has sand bed worth many times the price asked. Suitable to subdivide. This is a bargain.

WE HAVE a semi-central piece of property in block and a half of Peachtree street, on lot 60x200 feet, with three-story brick building, that we can sell at a bargain if sold at once. It now pays forty-five hundred and seventy-two dollars per year, and after the first of September, 1914, the rents go to five thousand dollars per year, or over 121/2% investment. This property is right in town, and is one of the best investments that

will be offered. Call for Whitten, Ivy 164. M. L. THROWER

SUBDIVISION WE BELIEVE we have the best tract in the city for subdivision, and that it is absolutely the best on the market for quick profit. It is located in a rapidly growing, spiendidly elevated and strietly white section. Streets and sedewalks already graded There is not a shoveful of dirt to move. It is ready for market and there is a handsome profit for someone within ninety days.

WI BUNGALOWS are the talk of the town. Pay me \$16.50 per month with as much cash payment as you have, and assume a small loan at reasonable interest. You are now paying \$25.00 per month "RENT" for this house on some cross street in the city, the car fare is the same; your neighborhood is no better and the "difference" is a "NOTE" cach month instead of a ren. receipt. Let we tell you about these homes—don't worry about cash payment, but see me at once.
